PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in data validation, quality assurance, and accuracy auditing, currently applying these skills in a healthcare billing environment at Viyugaa Technologies. Previously worked as a Business Analyst Intern, leading a team and delivering data-driven dashboards and reports using SQL, Python, Power BI, and Excel. Strong foundation in data cleaning, discrepancy resolution, and translating raw data into meaningful business insights. Seeking to bring these analytical and technical skills to a growth-oriented organization, contributing to data-driven decision-making and impactful business outcomes.

EXPERIENCE

Data Analyst – Data Quality & Validation (Healthcare Billing)

Viyugaa Technologies | June 2026 – Present

- Perform systematic data validation and quality audits on high-volume healthcare billing records, cross-referencing multiple data fields against source documentation to ensure accuracy and consistency.
- Identify, track, and resolve data discrepancies at the field and record level using a structured validation platform, implementing corrections to maintain data integrity across large datasets.
- Maintain 98%+ data accuracy while auditing and processing 1,500+ records daily, consistently exceeding quality and productivity benchmarks in a high-throughput environment.

Business Analyst Intern – Team Lead

UptoSkills | March 2026 – June 2026

- Led and mentored a team of 20 members, overseeing task allocation, progress tracking, and project execution to ensure timely delivery of objectives.
- Conducted SWOT analysis and business research to evaluate organizational performance, identify opportunities, and support strategic decision-making.
- Designed and delivered analytical reports and interactive dashboards using Power BI and Excel, providing actionable insights to stakeholders.
- Performed data cleaning, transformation, and exploratory data analysis (EDA) using Python and SQL to uncover trends and support business recommendations.

PROJECTS

Water Potability Prediction using Machine Learning

Python, Pandas, Scikit-learn, Matplotlib, Seaborn

- Developed a machine learning model to predict water potability using water quality parameters, with proper data cleaning and basic data visualization for analysis.

Deep Learning Framework for Breast Cancer Diagnosis

Python, TensorFlow, EfficientNet-B7, GAN, Grad-CAM

- Designed and implemented a deep learning model for breast cancer classification using GAN based data augmentation and Grad-CAM to enhance model accuracy.

Kongu Transport Management System

MongoDB, Express.js, React.js, Node.js

- Developed a bus transport management system with driver and administrator logins to report, track, and manage bus service issues efficiently.

EDUCATION

Kongu Engineering College, Erode

B.Tech – Artificial Intelligence and Data Science | 2022 – 2026

- CGPA: 7.95 / 10

Mahatma Montessori School, Madurai

Higher Secondary Certificate | 2021 – 2022

- Percentage: 93.16%

SKILLS

Programming & Query Languages: Python, SQL.

Tools and Technologies: Power BI, Tableau, Microsoft Excel, MySQL, GitHub.

Web Development: HTML, CSS, JavaScript, React.js, MongoDB.

Soft Skills: Analytical Thinking, Communication, Leadership, Problem Solving, Adaptability, Time Management.

CERTIFICATIONS

- MongoDB – Associate Developer Certification.
- NPTEL – Responsible and Safe AI.

ACHIEVEMENTS

- Finalist – Dark Pattern Buster Hackathon (All India Level), conducted by the Ministry of Consumer Affairs at IIT Varanasi.
- National Cadet Corps: Appointed Camp Senior at the NCC CATC Camp; awarded "Best in Training" for 2024–2025, at Kongu Engineering College.
